SIENNA'S JOURNEY

Why are diagnosis delayed?

Current Tech

X ray

CT

MRI

**Invasive
surgery**

An aerial photograph of a rural farmstead. The central focus is a large, light-colored house with a prominent porch and a smaller outbuilding. To the left, there is a dark barn and a smaller structure. The surrounding landscape consists of vast, open fields, some of which are planted with rows of trees. The lighting suggests late afternoon or early morning, with long shadows cast across the terrain.

Accessibility

Rural areas have up to
50% fewer
health providers
than in major cities
(per capita)

Stigma

**1 in 7 people
are uncomfortable
discussing symptoms
with their doctor**

Delayed diagnosis, a common story

2030

Health at home
